🔄 github.com/bellackn

I'm a DevOps Engineer specializing in both enterprise-scale international projects and agile startup environments.

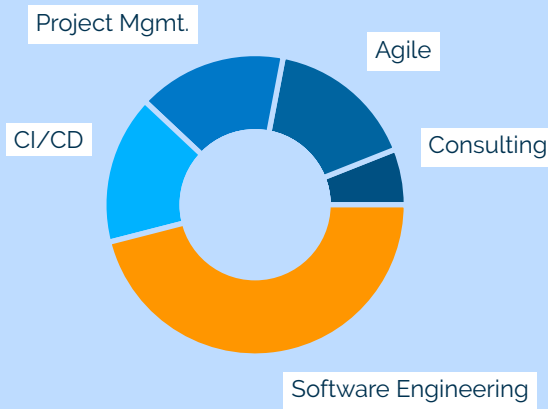

as latest degree from
University of Potsdam

I love my profession and follow the principles of Software Craftsmanship. Feel free to reach out to discuss potential job opportunities or collaborations!

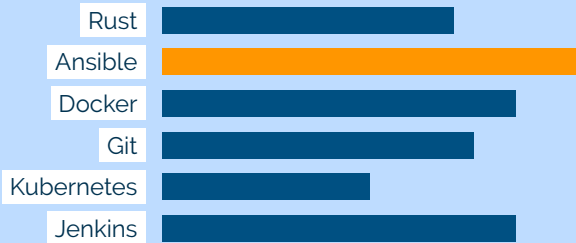

SKILLS AND TECHNOLOGIES

I focus on creating supportive environments for dev teams through effective tooling, monitoring, and streamlined processes.

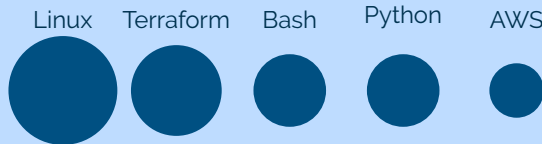

LANGUAGES

- 🇩🇪 German (native)
- 🇬🇧 English (fluent)

My background encompasses solving complex IT challenges faced by organizations of all sizes.

I choose the most appropriate tools for each challenge, with specialized expertise in selected technologies.

ACTIVITIES

of experience in
Software Development

In my free time I play drums, attend metal shows, and garden. I'm also passionate about fitness, repair work, and hoarding various dev projects.

- FOSS
- Drumming
- Fitness
- Gardening
